*This ranch style home has a great use of floor space, cozy and comfortable, but yet an open feel with plenty of natural light. As you enter from the covered porch through the entry door of this home, it will capture you with its large open living dining and kitchen areas with cathedral ceilings above. The gliding door will draw in the outdoors and allow access to the deck for enjoying nature. The hallway will lead you to the master bedroom and bath, along with two other bedrooms and guest bath. For those who wish for spacious single floor living this could be the floor plan for you. We would be happy to customize this design to fit your needs and lifestyle.*
